Thank you to everyone who entered in plenty of time. All competitors are entered into the database which is used to produce the start lists and the lists that we use for the safety checks and this needs to be done before the race, hence the closing date. The official results have been generated using the tried and tested manual timing. The electronic timing was being trialled this year and was very successful, provided instant provisional results on the web and showed up the 3 competitors who had failed to visit the safety control or Ugain. Thank you to 617 who came and owned up to not visiting FS - it does pay to read the final details! Next year's entry form and regulations will be e-mailed/snail-mailed to everyone in December. Can I make a plea to everyone to make sure you enter your age - the awarding of the vets' prizes depends on our knowing in advance that you are a vet. Also, if you are the person entering a team, please ensure that you write the names of your team members on your entry form and that all team members know who they are and complete the team name box on their own entry forms.
